How to use Douglas County’s Web Map

Icons for navigating the map
These icons will assist in navigating the map.

Search buttons
Use these Search buttons to find a tax parcel number, the current owner of a tax parcel, a road name, a situs address or a voting precinct in Douglas County.
To search for a tax parcel number, click Parcel Number Search and enter the 11-digit tax parcel number in the search window. Then, press Enter or click the Find button. The parcel number will appear in the Results window.

To search for a parcel owner, click Current Owner Search and enter the last name followed by the first name of the owner (last name, first name) in the search window. Then, press Enter or click the Find button. All of the parcels owned by that owner will appear in the Results window.

To search for a road name, click Road Name Search and enter the main part of the road name in the search window. Do not write a suffix or a prefix directional (N, S, NE, SW, etc.) or road designation (Dr, Ave, Ln, etc.) in the search window. Then, press Enter or click the Find button. All of the roads with that name will appear in the Results window.

To search for a situs address or a building address, click Situs Address Search. In the Situs Number field, enter the house number or building number. In the Street Name field, enter the main part of the road name in the search window. Do not write a suffix or a prefix directional (N, S, NE, SW, etc.) or road designation (Dr, Ave, Ln, etc.) in the search window. Then, select the zip code from the drop down list in the Zip Code Area field. Then, press Enter or click the Find button.

To search for a voting precinct, click Search Voter Precincts and enter the number of the voting precinct. Then, press Enter or click the Find button.
Search Results and Map Contents windows

The two windows on the left side of the screen are the Results and Map Contents windows. These windows will assist in navigating and selecting the search results and map layers.

Search Results
The Search Results window holds the search results for parcel numbers, current parcel owners, road names, situs addresses and voting precincts. All search requests will appear in the Results window. The search result will automatically expand and it will automatically be selected in the map.

To zoom to the search result, right click on the search result and from the 3 options, select “Zoom to”.

To unselect the search results, click the next to the results. When not selected, the box will look like . To select the wanted search results, click the next to the search results. When selected, the box will look like .

This is parcel 40000000806 after zooming to the parcel.
