

DOUGLAS COUNTY HAZARD MITIGATION PLAN SURVEY

Douglas County, and the cities and towns in the county, are conducting a survey of homeowners in the Douglas County area to identify issues and concerns regarding our vulnerability to future natural, societal and technological disasters. The goal of the process is to create a plan to minimize the impact of future disasters to our communities. Your input would be valuable for both identifying vulnerabilities and developing proposals to counteract those vulnerabilities. Please take a few moments to complete this survey. All answers are kept anonymous. Thank you.

1. Home Characteristics:
